

FIG. 1

FIG. 2 is a block diagram of a computer system 200. The system 200 includes a central processing system 202, main memory 204, auxiliary memory 206, and an auxiliary processing system 208. These components are connected to a system bus 210. The system bus 210 is also connected to a display system 212 and an input/output system 216. The display system 212 is connected to a display 214. The input/output system 216 is connected to multiple I/O devices, including I/O device 1 218, I/O device 2 220, and I/O device N 222.
